Sliding Headstock Type CNC Automatic Lathe

Introducing Citizen's newest development, the D25, equipped with double gang tool posts and B axis. The double gang layout enables short cycle times for high productivity at low part cost. The large number of tools, for both main and sub spindle, gives cost effective production of complex workpieces.

- Next generation CNC system with touch screen and qwerty keyboard. Easy set up with on screen graphical prompts. Ready for 'internet of things'.
- 3 x Y axis, 3 x Z axis.
- B axis for front-back machining.
- Independent adjustable angle rotary tools to sub spindle.
- Power and speed: 5.5kW and 10,000 rpm.
- Up to 59 tools.
- With/without guide bush - switchable operation.

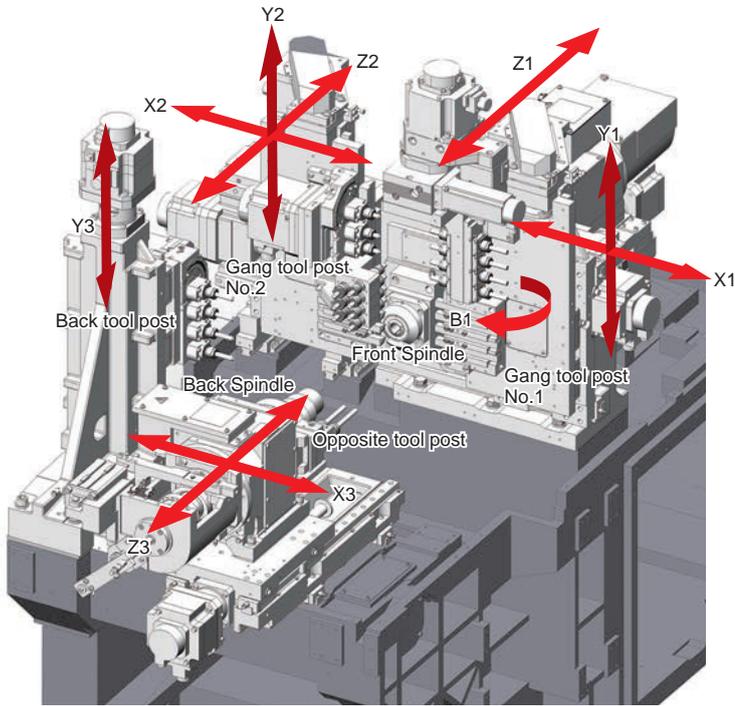

Axis structure and tool layout

Z2 axis to 2nd gang for opposed balance cutting to 1st gang and for simultaneous rough and finish machining.

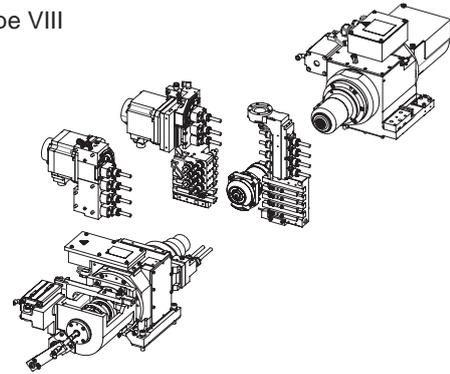

Back tool post (Y3 axis) accepts radial or face modular

fixed/rotary tools and is equipped with adjustable rotary tool for face, radial or angle machining.

Type VIII has B axis to 1st gang for complex machining on main and sub spindles.
